Lower Sackville, NS, Canada

## Professional Summary:

Dedicated and experienced web developer with a robust background in back-end development, complemented by valuable experience in front-end technologies. Success in crafting and implementing responsive layouts, and innovative web solutions. Proven ability to work with others as a collaborative team player, ensuring effective communication and successful project delivery. Seeking a position as a web developer to leverage technical skills and creativity in a dynamic environment.

## Skills:

• Demonstrated strong troubleshooting and problem-solving skills in resolving complex issues efficiently.

• Proven ability to collaborate effectively in team environments, fostering teamwork and achieving collective goals.

• Excellent communication skills, both verbal and written, enabling clear conveyance of ideas and instructions.

• Adaptability to various work situations and environments, maintaining productivity and effectiveness.

• Proficient in multitasking, managing multiple tasks concurrently while maintaining high standards of work quality.

• Possess a determined work ethic and a commitment to continuous learning, ensuring consistent achievement of objectives and professional growth.

• Proficient in programming languages such as HTML, CSS/SCSS, JavaScript, jQuery, and PHP for developing dynamic web applications and interfaces.

• Actively pursuing proficiency in Angular, React, Vue, and Drupal to expand skillset and enhance project capabilities.

• Experienced in utilizing Git (Terminal), GitLab, and GitHub for effective version control and collaboration in software development projects.

• Proficient in Adobe Creative Suite, including Photoshop, Illustrator, InDesign, and Premiere, for designing visually appealing and engaging multimedia content.

## Work Experience:

**VERB Interactive**                                  Halifax, Nova Scotia, January 2019 – January 2024

- Collaborated closely with team members, contributing to a cohesive work environment and ensuring the successful completion of projects.

- Facilitated effective communication between team members, ensuring clarity of project objectives and timely delivery of milestones.

- Developed dynamic and responsive websites using HTML, CSS/Sass, JavaScript, jQuery, and Bootstrap.

- Utilized PHP for back-end development and WordPress and Advanced Custom Fields for content management, contributing to the seamless functionality of websites.

- Demonstrated proficiency in version control using GIT, contributing to repositories on GitLab/GitHub.

**Code & Mortar**                                  Dartmouth, Nova Scotia, April 2018 – December 2018

- Developed and maintained web applications, ensuring optimal performance and user experience.

- Collaborated with designers and other developers to translate project requirements into functional code.

- Utilized front-end technologies, including HTML, CSS, JavaScript, and jQuery, to create visually appealing and responsive websites.

- Skilled in WordPress, including Advanced Custom Fields (ACF), for efficient content management system implementation.

- Proficient in utilizing frameworks such as Bootstrap and similar tools to streamline web development processes.

**Burke & Burke**                                  Halifax, Nova Scotia, May 2009 – March 2018

- Sole developer responsible for the development and maintenance of all web projects at Burke & Burke.

- Played a key role in the development and maintenance of client websites, emphasizing usability and functionality.

- Worked closely with design teams to implement visually engaging user interfaces.

- Developed custom WordPress themes and enhancing the overall user experience.

- Edited videos using Adobe Premiere and DaVinci Resolve; capable of creating compelling multimedia content.

## Education:

Bachelor of Interdisciplinary Design, Nova Scotia College of Art and Design (NSCAD), 2009
