78 Sunnyvale Crescent, Lower Sackville, NS, Canada

About:

Dedicated and experienced web developer with a robust background in back-end development, complemented by valuable experience in front-end technologies. Success in crafting and implementing responsive layouts, and innovative web solutions. Proven ability to work with others as a collaborative team player, ensuring effective communication and successful project delivery. Seeking a position as a web developer to leverage technical skills and creativity in a dynamic environment.

Work Experience:

VERB Interactive
Halifax, Nova Scotia
January 2019 – January 2024

- Developed dynamic and responsive websites using HTML, CSS/Sass, JavaScript, jQuery, and Bootstrap.
- Utilized PHP for back-end development and WordPress and Advanced Custom Fields for content management, contributing to the seamless functionality of websites.
- Demonstrated proficiency in version control using GIT, contributing to repositories on GitLab/GitHub.

Code & Mortar
Dartmouth, Nova Scotia
April 2018 – December 2018

- Developed and maintained web applications, ensuring optimal performance and user experience.
- Collaborated with designers and other developers to translate project requirements into functional code.
- Utilized front-end technologies, including HTML, CSS, JavaScript, and jQuery, to create visually appealing and responsive websites.

Burke & Burke
Halifax, Nova Scotia
May 2009 – March 2018

- Sole developer responsible for the development and maintenance of all web projects at Burke & Burke.
- Played a key role in the development and maintenance of client websites, emphasizing usability and functionality.
- Worked closely with design teams to implement visually engaging user interfaces.
- Developed custom WordPress themes and enhancing the overall user experience.
